

Dice Roll Report

The Additional features have all been completed.

- 1.Display the numeric keyboard to request the user's guess (Figure 1).
- 2.Hide the keyboard when the Guess button is tapped (Figure 2).
- 3.Empty out the input field when it is tapped as the user prepares to enter a new guess (Figure 2).

What's more, when user input incorrectly, the app will display a warning (Figure 3/4/5).
